

BUILDING BLOCKS

SPRING 2027

MAKING CONNECTIONS THROUGH LANGUAGE, SOCIAL COMMUNICATION, AND PLAY

Who We Help

Building Blocks is a therapeutic preschool program for 2-5 year olds with difficulties in speech-language, sensory/emotional regulation, and/or social communication development.

Daily Schedule

Based in the SCERTS model, our daily schedule includes typical preschool activities: circle time, centers, art, sensory play, snack time, and gross motor play.

Skills Targeted

Through activities with peers and adults, we target developmentally appropriate speech and language, participation in group activities, symbolic and reciprocal play, and the building blocks to emerging conversation. Each child receives an individualized treatment plan catered to their specific growth opportunities.

General Information

Dates

January 19 - May 6, 2027

Time

Offered 9:00 AM - 11:30 AM Monday- Thursday with 2- or 4-day enrollment options

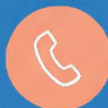

Support

Led by 1-2 speech-language pathologists, and supported by graduate students in speech-language pathology from the UTD Callier Center. Class size will be limited to 6 children.

Building Blocks is a tuition-based, private pay program. While we do not submit to insurance companies, your per-session cost may be reimbursable by your insurance company under your out-of-network benefits for group speech language therapy (CPT code: 92508). We encourage you to contact your insurance company with any questions.
